CONFIDENTIAL/ATTORNEY WORK PRODUCT/ATTORNEY CLIENT COMMUNICATION

Hi Lydia – where could we get updates on enforcement in connection with Hudson Refinery, Tulsa Fuels, and Wilcox Refinery? Many thanks.

Jim, Pam – within a couple days, please arrange for short updates on the cases mentioned in the attached 11/16/2015 letter from Oklahoma, including status and next steps as well as any role by Oklahoma DEQ. This will help in preparation for a call DOJ and EPA are having with Oklahoma DEQ this Mon July 11.

Mark – for when you return, pls be familiar with status of these cases and able to speak to them during the July 11 call, if there is a reasonable opportunity.

Pam – including you as fyi.

Jim

Please see the attached from Martha Penisten, ODEQ General Counsel. Looks like they want to restart discussions on an SMOA and also want to set up a meeting to discuss 3 specific sites: Wilcox Refinery, Hudson Refinery and Tulsa Fuels. I understand we have had discussions with the State on these but they seem to want something more formal.

Ben

Attached please find a letter from me to you concerning Superfund PRPs and cost recovery in Oklahoma. (Hard copy to follow via regular mail.) ODEQ has been missing out on some opportunities to recover costs over the years, and this letter is our effort to correct that situation going forward. I would appreciate it if you would share the letter with the appropriate people at Region 6, and let me know if there is anything else ODEQ needs to do to facilitate this. Thank you for your help.
